

ABOUT US

High Tech Backup ("HTB") specializes in providing companies with outsourced IT services to better manage their internal IT requirements. We offer a seamless, reliable approach to managing your IT systems.

SMART, SIMPLE SOLUTIONS IN TODAY'S TECHNOLOGY

HTB can provide all services ranging from basic start up installation to choosing and implementing the appropriate hardware and software packages to fit your company's needs. With access to prime technological innovations that relate to all environments, we can speedily install and configure whatever your network demands, keeping in mind cost saving solutions that can reduce your total cost of ownership.

HIGH TECH BACKUP IS ALL THE BACKUP YOU NEED

We're experienced in supplying outsourced technological solutions to the business world and incorporating security, speed, knowledge and response into multifaceted technologies proficiently and effectively, all from one solitary point of communication.

WE ARE YOUR ONE STOP SHOP PROVIDING ALL YOUR IT NEEDS

HTB offers computer and telephone integrations, business and wireless applications, administration and troubleshooting, full-time help desk support, remote monitoring of servers, data backup, antivirus protection, preventative maintenance, software updates, management of third-party vendors, procurement of hardware and software, and cost savings assessments.

HTB is a long term solution for your company. A team of dedicated professionals will be by your side helping you through transitions and upgrades and providing comprehensive technological knowledge and support.
