HighTechBackup
 your reliable IT source

Why our clients choose our Desktop Core Security Solution

Stand-alone Anti-virus Software:

- Provides a point solution to specific issues
- Requires manual monitoring and maintenance to remain current and effective
- Relies on end-user decisions for operation
- Does not provide consistent version control across desktops
- Does not provide centralized management and lacks reporting

Managed Anti-virus:

- Provides proactive and comprehensive security, monitoring and management
- Centralizes the deployment and updating of software to ensure coverage and consistency
- Automates management processes to avoid errors and reduce costs
- Leverages expert IT skills
- Monthly reporting to show you are protected
